# **Deployment Communication** Ohio SACWIS-RTIS Hotfix Release 4.31.1

### **Background**

Ohio SACWIS & Ohio RTIS Release 4.31.0 was deployed into production on Thursday, January 18, 2024. A critical issue was subsequently found against Best Interest functionality within the Finance Module post-deployment that is preventing agencies from being reimbursed and requires immediate attention.

## **Contents of Deployment**

Best Interest rulings will correctly pull into Eligibility records. For records that are in a Pending status, users will see the Best Interest ruling and can calculate Eligibility as usual. For any agencies that may have saved an Eligibility record with an Eligible status of 'No' due to the Best Interest ruling not correctly displaying, the record can be created in error and recreated as usual.

### **Deployment Details**

Hotfix Release 4.31.1 will be deployed into the production environment on Thursday, February 15, 2024.

### **Deployment Resources**

N/A
