131	251	RPT 251 - AFCARS Actuals - Adoption	Report	Administration	Generated through the batch process.	Batch Report	Nightly	The Adoption and Foster Care Analysis and Reporting System ((AFCARS) is a federal data collection effort that provides child-specific information on all children covered by the protections of Title IV-B and Title IV-E of the Social Security Act. On an annual basis, all states submit data to the U.S. Children's Bureau, concerning each child in foster care and each child who has been adopted under the authority of the state's child welfare agency. The AFCARS databases have been designed to address policy development and program management issues at both the state and federal levels. The data are also useful for researchers interested in analyzing aspects of the United States' foster care and adoption programs. The Archive distributes two data files for each federal fiscal year since 1995, one file containing the adoption data and the other the foster care data. The adoption file contains 45 data elements concerning the adopted child's gender, race, birth date, ethnicity and prior relationship with the adoptive parents. The date the adoption was finalized, dates parental rights were terminated, and characteristics of birth and adoptive parents.
132	252	RPT 252 - AFCARS & ASFA Exception Reports	Report	Administration	Administration Tab>Reports>Report Category - Fiscal; Type-Agency	On-line & PDF	Real-time	This is an Adoption and Foster Care Analysis Reporting System summary and Adoption and Familites Safe Act of 1997 (AFSA) exception report from SACWIS system.
