Provider	15772			Change provider type to Foster Care	

Release Notes for SACWIS Build 1.118

(Scheduled for release on 10/06/2011)

- The defects listed below are scheduled for release in this build.
- Release in this build is dependent upon successful testing of the fix for each defect.
- Defects that are not successfully tested by the closeout time, for this build, will be re-scheduled for a subsequent build.

Functional Area	Defect ID	Ticket #	Report ID	Summary of Defect	Resolution Comments
Provider	14014			Private Agency Access- Acceptance Criteria (RM05)	For Home Provider records, only users employed by the Recommending Agency for the non end-dated provider type and state employees will be able to add, edit or copy Acceptance Criteria for that provider type.
Provider	15757			RM25 issue found with next button on Activity log	Next button is disabled when user is on first activity log. No longer receiving Java Error.
Provider	15274			Waivers not deleted from approvals tab when deleted from the provider record.	When a waiver is deleted from the provider record, it will now be deleted from the approvals tab as well.
Provider	15626			Provider Impact to Technical Refactoring of PERSON model to make flag fields required	
Adoption	15541			CM20g-Secure (Seals & Close) Adoption Finalization for CRIS-E Interface	Upon the seal and close process of adoption records, the identified information re: CRIS-E interface is either displaying correctly as identified in the requirements or not displaying (for those fields that should not display) in the new person ID record created, as identified in the requirements.

Release Notes for SACWIS Build 1.118

(Scheduled for release on 10/06/2011)

- The defects listed below are scheduled for release in this build.
- Release in this build is dependent upon successful testing of the fix for each defect.
- Defects that are not successfully tested by the closeout time, for this build, will be re-scheduled for a subsequent build.

Functional Area	Defect ID	Ticket #	Report ID	Summary of Defect	Resolution Comments
Admin	15627			Administration Impact to Technical Refactoring of PERSON model to make flag fields required	This is a technical change in the tables to ensure that agency contact information will continue to be able to added in SACWIS. No change will be visible to the SACWIS users.
Finance	14002	54450		CM09 - Alternative Care Leave Service Type Changes	When alternative care is selected as a placement leave type, the placement service types associated to the alternative care leave appear correctly in the placement service type dropdown list.
Finance	15669			Process Service Auth Batch Job Failing	
Finance	15635			Fix Invalid Payment Batch job	The code has been updated and the job now runs to completion regardless of the number of payments marked for review.
Finance	15667			FM 25 - Generate IV-E Medicaid Job to account for Living Arrangement Created in Error	When a Living Arrangement record for the Child of a Minor Parent has been created in error and a Medicaid span exists for the child, the monthly Medicaid job will close the Medicaid span unless a new valid Living Arrangement record or reimbursability record exists for the child.

Release Notes for SACWIS Build 1.118

(Scheduled for release on 10/06/2011)

- The defects listed below are scheduled for release in this build.
- Release in this build is dependent upon successful testing of the fix for each defect.
- Defects that are not successfully tested by the closeout time, for this build, will be re-scheduled for a subsequent build.

Functional Area	Defect ID	Ticket #	Report ID	Summary of Defect	Resolution Comments
Finance	10924			FM02 and Rm08 Inactivate service when obsolete and do not allow to be reactivated	Coding has been updated to mark all provider services as inactive and display 'Obsolete' on the providers' service descriptions when a service has been made obsolete in the Financial-Services-Maintain Services area. The Service Status Effective Date will also reflect the date the service was made obsolete.
Finance	13528	52458		FM05a Alternative Care Leave Change Enhancement - When a placement leave is added the modified date would change on the service auth and nothing changed on it.	The service auth will not have the modified date when the user adds a new alternative leave record.
Finance	14496	56619		FM06 - Foster Parent Reimbursement Exception	No exception is given now when the foster parent pre-service training date is prior to the date the participant was an active member of the provider.

Release Notes for SACWIS Build 1.118

(Scheduled for release on 10/06/2011)

- The defects listed below are scheduled for release in this build.
- Release in this build is dependent upon successful testing of the fix for each defect.
- Defects that are not successfully tested by the closeout time, for this build, will be re-scheduled for a subsequent build.

Functional Area	Defect ID	Ticket #	Report ID	Summary of Defect	Resolution Comments
Finance	6712			FM06 Unable to navigate from one page to another in Disbursement Payment Search result page	On the Disbursement Payment Search Results screen, functionality has been fixed to enable worker to navigate through multiple returned search results screens without receiving an error.
Finance	6769			FM19-Prevent User Who Does not have Appropriate Security from Viewing Eligibility Via Adoption Subsidy Record if Child is Sealed/Secured	The system has been corrected so that if a user does not have the security user group of Closed/Sealed Adoption Reviewer, the view link for ADC Relatedness History in the Adoption Subsidy Eligibility Requirements record is hidden. This prevents workers that do not have the required security from viewing the ADC Relatedness History which subsequently reveals the pre-adoptive or bio person id. The pre-adoptive id should only be viewable when the required security user group of Closed/Sealed Adoption Reviewer has been assigned.
Finance	15822			FM25 Generate Medicaid Eligibility	
Finance	15823			FM25 Generate Medicaid Eligibility	The system will now create and end Medicaid for a retroactive period of eligibility.

Release Notes for SACWIS Build 1.118

(Scheduled for release on 10/06/2011)

- The defects listed below are scheduled for release in this build.
- Release in this build is dependent upon successful testing of the fix for each defect.
- Defects that are not successfully tested by the closeout time, for this build, will be re-scheduled for a subsequent build.

Functional Area	Defect ID	Ticket #	Report ID	Summary of Defect	Resolution Comments
Finance	15553			RM03b: Foster Parent Training- Stipend flag - When stipend and reimburse allowance flags are unchecked and then record is SAVED, the stipend flag is rechecked by the system.	Results are accurately being saved in the system when the Stipend Payable to Participant box is unchecked.
Finance	14569	57157		RM13 - Contract cost not showing up on contract	As an isolated incident for a specific county, newly created contract placement services costs were not displaying on the contract in SACWIS, but were displaying correctly in the database table; code has been corrected and contract costs display on the contract.
Finance	15518			Updates Needed to the YFM0157MPRD - Create Monthly CRIS Med Card File Batch Job as a Result of the Implementation of the CRIS-E Inquiry Functionality	An update was made to the YFM0157MPRD - Create Monthly CRIS Med Card File Batch Job to coincide with the implementation of the CRIS-E Inquiry Functionality. Any spans brought over to SACWIS from CRIS-E and stored in the Medicaid Eligibility area will not impact the processing of monthly Title IV-E Medicaid cards originating from SACWIS, nor will monthly Medicaid cards be produced for any open CRIS-E spans being displayed in SACWIS.

Release Notes for SACWIS Build 1.118

(Scheduled for release on 10/06/2011)

- The defects listed below are scheduled for release in this build.
- Release in this build is dependent upon successful testing of the fix for each defect.

Functional Area	Defect ID	Ticket #	Report ID	Summary of Defect	Resolution Comments
Finance	15517			Updates Needed to the YFM0250DPRD - Daily RMF Update to MMIS Batch Job as a Result of the Implementation of the CRIS-E Inquiry Functionality	An update was made to the YFM0250DPRD - Daily RMF Update to MMIS Batch Job to coincide with the implementation of the CRIS-E Inquiry Functionality. Any spans brought over to SACWIS from CRIS-E and stored in the Medicaid Eligibility area will not impact the processing and transmission of daily Medicaid eligibility spans originating from SACWIS. Spans originating through CRIS-E will be ignored by this daily update batch job. Additionally, two procedures linked to resending information to MITS based on changes to demographic 'triggers' within SACWIS will also ignore Medicaid spans originating from CRIS-E and will not attempt to resend these spans to MITS. Lastly, HMO spans returned to SACWIS from MITS daily will only be associated with the appropriate line of Medicaid eligibility originating from SACWIS.
