-The defects listed below are scheduled for release in this build.

-Release in this build is dependent upon successful testing of the fix for each defect.

-Defects that are not successfully tested for this build will be re-scheduled for a subsequent build.

Functional Area	Defect ID	Remedy Ticket#	Report ID	Summary	Release Notes
PERSON	2208	11750		PM01c - Change GUI to read "Hours worked in normal week"	In Person, under the Employment Section, on the Income Tab, there is a location for entering work hours that now is "Hours Worked in Normal Week" and not "Hours Worked".
INTAKE & INVESTIGATIONS	2317			Domain Integrity - INTAKE - SCREENED_OUT_REASON_CODE	data fix script run in production immediately to clean up bad data Defect_2317_Constraints.sql - script to create database trigger to prevent bad data from being added
INTAKE & INVESTIGATIONS	2346			Domain Integrity - INTAKE_PARTICIPANT - GENDER_CODE	data fix script run in production immediately to clean up bad data Defect_2346_Constraints.sql - script to create database trigger to prevent bad data from being added Data fix has been completed to remove Invalid GENDER_CODE values in the INTAKE_PARTICIPANT table & database modifications have been made to prevent invalid values from being entered in the future.
INTAKE & INVESTIGATIONS	8042			IN01 - Participants --relationships pull from case into the intake (Astericks)	New button has been added on the intake participants screen labeled "Retrieve case relationships". The button will invoke a new screen which will display the case relationships between the persons from their cases. The relationships can be edited while the intake is "in progress".
PERSON	8175	37409		PM01b - Entering Immunization Dates	Multiple dates (up to 5) can now be entered at one time for the same immunization.

INTAKE & INVESTIGATIONS	10434	39152		IV18 - Receive Java Error when Linking CAN to NA Case	Now you can link CAN intakes to NA Cases if the CAN is dated prior to the NA Case Date.
INTAKE & INVESTIGATIONS	11746			IN01a - The Copy ACV details, Copy AP details, Copy address buttons are not working	The Copy ACV details, Copy AP details, and Copy address buttons are now functioning correctly.
PERSON	12783	49088		PM01f - Person Address (hyperlink disabled if the person is a member on a provider record-cannot view environmental hazard section)	The address hyperlink for provider members is now enabled in view only mode which will allow users to view hazards, directions and the school district of the address.
INTAKE & INVESTIGATIONS	13062	50238		IV13 - System creating duplicate ticklers	The case disposition tickler will no longer appear twice for the same intake ID number.
PERSON	13108	50320		PM01g - Person Profile - Military Screen MODIFIED_BY Column Enhancement	The Modified By field on the Person table or any dependency tables will be modified ONLY if data is updated or created.
INTAKE & INVESTIGATIONS	13425		21	RPT 021 - Help Me Grow referral form (NEW)	The Help Me Grow referral form is now available in SACWIS.
INTAKE & INVESTIGATIONS	14287			IV08 - Family Assessment: Value for discretionary reasons must be selected if Yes is selected for "Should Preliminary Matrix...", and if other is selected, text needs to be entered in describe reason field.	Validation messages will be received on the Family Assessment if the following fields are not entered: Discretionary Override Reason, Discretionary Override Reason text box and an agency in the dropdown if "Case Referred to Other PCSA" is selected.
INTAKE & INVESTIGATIONS	14288			IV07 - Safety assessment--A child needs to be added to a safety assessment in order to navigate to other tabs and to also apply/save	When the user is on the Safety Assessment Details section, the user cannot leave the page and navigate to any of the other tabs on the Assessment without first adding a child participant.
INTAKE & INVESTIGATIONS	13807		21	RPT21 - New Help Me Grow Referral Form-- Need parameter page	Parameter page added for Help Me Grow Referral form.
INTAKE & INVESTIGATIONS	14403			CM49 - Validation issues in Ongoing Assessment	Minor validation issues in the Ongoing Assessment are functioning correctly.
INTAKE & INVESTIGATIONS	14405			IV08 - Validation issues with Family Assessment	Minor validation issues in the Family Assessment are now functioning correctly.

INTAKE & INVESTIGATIONS	14462			IV07 - Safety assessment - validation regarding all participants must have a relationship is not being enforced	Java error has been corrected. Validation regarding all safety plan participants must have a relationship is now being enforced.
INTAKE & INVESTIGATIONS	14540	56838		IN15 - Existing Case Ticklers Disappearing after Unlinking Intake from Case	Existing case ticklers will continue to display after unlinking a new intake from a case.
INTAKE & INVESTIGATIONS	14697			IV06 - Missing Safety Assessment on Safety Plan	Modules impacted: PlanConstants.java - provide alias for ambiguous column in query
INTAKE & INVESTIGATIONS	14740			IN01 - Participants - Unknown checkboxes on ACV/CSR details	When "unknown" is selected as a value on the ACV/CSR details page, the "Unknown to Referral Source" will be automatically checked.
INTAKE & INVESTIGATIONS	14761			IV21 - Add "Select All" checkbox next to display of intake participants for Justification/Waiver and display to be in descending order on the list screen	A "Select All" checkbox was added to the selection of intake participants for Justification/Waiver. The list of Justification/Waivers now display to be in descending order on the list screen.
NON-FUNCTIONAL	14762			IN01 - Directional information proceeds the address while on the allegations, setting, then "view participants address" screen	A minor display issue on the intake allegation setting address was fixed.
INTAKE & INVESTIGATIONS	14772	58290		IV20 - PSA filter does not show all Active PSA's	The PSA filter now returns accurate results.
INTAKE & INVESTIGATIONS	14804			IN01 - Reporter - Java Error	Intake reporter address field length has been adjusted to match the database. Java error will not be received if reporter address exceeds 400 characters.
PERSON	14833			PM01h - Servlet Exception Error Received When Clicking on Case Disposition Link for Intake that is not Linked to a Case	An error is no longer received when the disposition link is selected from person history if the intake is not linked to a case.

INTAKE & INVESTIGATIONS	14847			Technical Refactoring - remove dead code and more read-only keys in intake and assessment/investigation	All areas impacted by code changes (Intake Link, Intake Unlink, Intake Related Persons, Protective Service Alerts, Intake Participant Relationships, Intake Participants, Family Assessment, Ongoing Assessment, Specialized Assessment) are functioning correctly
INTAKE & INVESTIGATIONS	14884	58951		IV08 - linked participants not showing up	Family Assessment Participants are now displaying correctly when a Family Assessment is created by a Supervisor that is not explicitly assigned to the case.
CASE	14904			IN07 - Impact of Attorney Communication on Case Delete package	Modules impacted: pkCaseValidation.pkb - add attorney communication cursor and loop pkCaseDatafix.pks - add specification for attorney communication procedures pkCaseDatafix.pkb - add code for communication procedures and do a massive renumbering
CASE	14905			IN15 - Impact of Attorney Communication on Intake Unlink	When attempting to unlink an intake that created a case, the system will give the data validate error "Unlink cannot be peformed on this intake" if any Attorney Communication records exist on the case.
PERSON	14970			PM01g - Person Military History-- Duplicated validation message.	A duplicated validation message is no longer displayed when entering a person's military history.
INTAKE & INVESTIGATIONS	15038			IN03 - Inconsistencies with drop-down behavior when changing screening decision	When values on the screening decision page are changed , the system is now clearing out any inconsistent values.
INTAKE & INVESTIGATIONS	15112	60366		IN01 - Participants - Java error deleting intake participant	Users can now delete intake participants on pending intakes without receiving a java error.

INTAKE & INVESTIGATIONS	15113			IN01 - Participants - Copy ACV details is not copying custodians	The Copy ACV/CSR Details functionality is now correctly copying custodian information.
CASE	15083			CM05 - Case Plan - Recommended Case Plan	When the Recommended placement type selected is "Own Home", the placement information section is no longer appearing for the identified child on the Recommended case plan.
CASE	14926	59238		CM09 - Unable to Discharge Placements on Child Legal Status	Placement Discharge information can now be entered and saved within a placement when the terminated legal status is a Child Legal Status type.
CASE	14579			CM41 - Service Review - Unlinked and never linked case services	The Case Review/ SAR service review information will allow users to review the comprehensive impact of all services provided by, arranged for, or paid by an agency, including those services not linked to a Case Plan. See the Knowledge Base Article title "Adding Service Review Information" for specific details.
CASE	14580			CM10 - Case Services - Ability to add a service review and service activity on an end dated service	Users now have the ability to add a service review and service activity on an end dated case service.
COURT	11145			CM01h - A complaint or Motion shall not be locked upon entry of the File Stamp Date	Both the Complaint Date Submitted and the Motion Date Submitted are required to save the record. In addition, the Complaint and the Motion record remain editable within the current case episode (the File Stamp Date no longer locks the Complaint and/or the Motion record).
COURT	11340	43722		CM01a - County receives JAVA error after canceling legal status termination	The JAVA error received after canceling legal status termination has been corrected.
COURT	1948	819		CM01h - User request field size increased	The Basis for Allegations narrative text box within a Create Complaint record, has been modified to 10,000 characters.

PROVIDER	11949			RM30-Change display list of home study topics	Display list of home study topics have been changed as follows; Amend/Update topic on the list was moved towards the top of list under Basic Provider Information topic.
PROVIDER	11813			RM30-Update DOF topic missing-check the set of Family related narratives and add missing ones	Description of Family topics was udated to include topic that was missing in the narrative section. Description of Family issue: Topic 29-Additional Assessor Observations was not initially included in the list of Family Narrative topics. When user selected the 'copy' feature from a old DOF then this missing Topic is not pulled to the new DOF and therefore validation for processing the home study is showing that a DOF narrative information missing.
PROVIDER	10437			RM 04- Do not allow license recommendation on Residential or Non-ODJFS provider	Provider License Utility will not allow the creation of recommendations for Residential and Non-ODJFS provider. The Add recommendation button is disabled.
PROVIDER	2671			RM 25: Need to be able to see associated participants	
PROVIDER	5602			RM 25- Visual indicator added for viewed activity logs	After an activity log is viewed or edited on a provider record and then closed, a "v" to the right of the view or edit link (whichever is present for that record) will display. A message that "you have viewed this activity log" will be given when the cursor hovers over the "v" symbol.

PROVIDER	5676			RM 25-Update Contact Type, Category & sub-category on Provider Activity Log	The following contact types have now been added to the provider activity log; Contact type:Collateral, Fax, Meeting. The following categories have now been added to the provider activity log; Category: Detention Facility, Independent Living, Med/Edu Facility, Non-Relative, Relative.
PROVIDER	14320			RM04 - Maintain Licensing Activities - Do not create new 2-yr certification span when moving from Treatment to Medically Fragile Foster Home	When a foster home Transaction Type is Change in Circumstance or Transfer and the level of care going is changing from a Treatment Foster Home to Medically Fragile Foster Home, "No" new 2 year certification span is generated
PROVIDER	14718			RM25: ODJFS employees need to be able to record activity logs on all provider records	Users employed by ODJFS should be able to record activity logs on any provider record. This is to support data entry regarding provider merges, BCII, FBI results and waiver information.
ADOPTION	14828			TPR values need included in adoption case creation	The four new TPR values (TPR Father - Involuntary due to CAN or Dependency; TPR Mother - Involuntary due to CAN or Dependency; TPR Father - Deserted Child/Safe Haven Baby; TPR Mother - Deserted Child/Safe Haven Baby) added in the Rulings Received selection box are correctly validated upon creation of an adoption case, and at time of sealing an adoption case.
PROVIDER	14832	58844		RM25 - Unable to Add Activity Logs to Closed Provider	Any user can now enter a Activity Log on a closed provider.

PROVIDER	14776			RM04 - level of care change not being saved in transaction	When a foster home is changing level of care, and the user selects the new level of care on the Transaction page, the selected new level of care is now being retained and no longer reverts back to the previous level of care.
PROVIDER	15099	60327		RM25- When adding new acitivity log user is not seeing this new one unless they select Filter	User now sees their newly created Activity Log in their list of Activity Logs as soon as they select the 'SAVE' button on the activity log page.
PROVIDER	15032			RM03b: User is able to enter training sessions on the same date and with an overlap for the same participant	A training participant can not be added to two trainings if there is more than a 1 minute overlap. This issue was found in Build 115.0.
PROVIDER	15033			RM 25: the Clear Form button on the activity log should reset the default display of activity logs to displaying all records	Clear form is now working correctly and user is returned to Activity Log list with no filter.
CASE	15145	60416		CF14 - Case Plan is Processed for Final Approval But Still Shows Pending Approval	Case plans that have been amended for case closure and routed will now be able to be approved.
ADMINISTRATION	11836			CF14: add waivers/ variances to the task type values and display routing history	Functionality has been added to allow waivers/variances to be routed for approval.
FINANCE	12311			WAS7 -- Service Auth-- Placement History Link	

FINANCE	14102			FM33 - Additions and Deletions to JFS 04281 Report	New business rules were added in the system to prevent the user from entering Title XX numbers (Part Three) that exceed the number of non-eligible children for substitute care and adoption assistance. When counties are data entering the Title XX info for Part 3, Line 3a, the number entered cannot exceed the Total IV-E cases minus IV-E Eligible. If the number is greater, the following error message will display: The number of children in substitute care eligible for Title XX cannot be greater than the total number of non-IV-E eligible children. When counties are data entering the Title XX info for Part 3, Line 3b, the number entered cannot exceed the Total AA cases minus IV-E Eligible. If the number is greater, the following error message will display: The number of children with subsidized adoption maintenance agreements eligible for Title XX cannot be greater than the total number of non-IV-E subsidy eligible children. The Statewide Detail associated to the 4281 now contains calculations for TANF Title XX, IV-B distribution, RMS Code 761 distribution, RMS Code 772 distribution, RMS 769-771 distribution, IV-B Distribution Non-Admin and IV-B Distribution Admin.
FINANCE	14851			Service Authorization Search	Changed the validation to include current date, but not allow the maual payment to be future dated.

FINANCE	14836			RMS03b- Auto populate Reimburse Stipend checkbox when stipend is marked as paid	System functionality has been updated to auto-populate the "Reimburse Stipend" check box when the "Stipend Payable to Participant" box is checked provided the "Apply Hours to Certification" is Yes. If the "Apply Hours to Certification" drop down box is set to No, the "Reimburse Stipend" check box is grayed out and cannot be selected by the user. If the user does not wish to receive reimbursement for a particular participant, the "Reimburse Stipend" box can be un-checked.
FINANCE	14705	52895		Payments not Receiving Reimbursement for Last Day of the Month	The system will now reimburse for the last day of the month for the new placement.
FINANCE	14446			FM20 Updates for New Nunc Pro Tunc Ruling Values	Updates were made to the eligibility process so that when the nunc pro tunc value is chosen for best interest the eligibility determination appropriately displays the requirement is not met. When the nunc pro tunc value is selected for reasonable efforts the eligibility determination appropriately displays the requirement is met if the ruling is received within the 60 days allotted. If not, the determination is no.
FINANCE	14683			FM33 4281 Report Placement Day Duplication	Updates have been made to the 4281 batch and duplicates are no longer appearing on the report.
FINANCE	14687			FM33 Updates to Line Item Calculations	

FINANCE	15127			FM06- Update units and dates option is not available in the drop down menu	The ""Update Units and Dates" option and functionality has been restored. Users are now able to update the number of units to be paid for foster parent training or foster care miscellaneous payment requests.
FINANCE	14960			FM27 - Financial Workload Defect #1/7 - Auto Assign Eligibility Worker Upon Adoption Subsidy Save in 'Approved' Status	An enhancement has been made to the system which will automatically assign the worker who completed and saved the adoption subsidy record with an 'approved' status. The Work Assignment will be created with the start date of the subsidy effective date upon saving an approved AA or SAMS subsidy record. By having the system automatically make the work assignment, this alleviates the requirement for the supervisor to manually create the work item assignment from the 'Unassigned Children' queue. The supervisor will have the ability to remove the auto-assigned worker from the work item assignment and to add a different or additional workers to the work item assignment.
FINANCE	14961			FM27 - Financial Workload Defect #2/7 - Continue Worker Assignment When an AA Subsidy is Extended Past the 18th Birthday	An enhancement has been made when an adoption subsidy record is extended beyond the recipient's eighteenth birthday the system will continue the open work assignment for the currently assigned worker or will create a new assignment if one does not exist for the logged in user recording the review record or the subsidy extension.

FINANCE	14962			FM27 - Financial Workload Defect #3/7 - System to Auto Terminate Eligibility Worker Assignment Following Subsidy Termination Date	A new monthly batch job has been developed. When the job runs on the last calendar day of each month it will look for all the adoption subsidy records that have ended in the previous month that have open work assignments. If any open work assignments are found, they will be end dated with the current system date (last day of the month).
