Report with Minor Mother and/or Minor Mother's child as Alleged Child Victim, Child Subject of the Report or Other Involved Child

Report

 Report and assessment should be recorded under the minor mother's biological case.

Safety Assessment •Safety Assessment will be completed with the minor mother and her parents or other adults in the household, as applicable, assessed as caretakers or others in the family.

Family Assessment • Family Assessment can be completed to include the assessment of the minor mother as parent/caregiver to her infant; and as a child in her biological family system.

Should the PCSA provide ongoing services to a minor mother in her role as parent while providing ongoing services to the minor mother's parents, it is recommended that a separate case be created for the child of the minor mother. Absent new allegations of child abuse and/or neglect, the case should be created and opened under a dependency intake.

PCSA has custody of Minor Mother and/or Minor Mother's Child

Report

•A report and assessment should be recorded under two cases. The minor mother's biological case and a case for the minor mother's child.

Safety Assessment •Safety Assessment will be completed with the minor mother and her parents or other adults in the household, as applicable, assessed as caretakers or others in the family.

Family Assessmer • Family Assessment can be completed to include the assessment of the minor mother as parent/caregiver to her infant.

Create a Separate Case with Minor Mother as Parent Absent new allegations of child abuse and/or neglect, the case should be created and opened under a dependency intake.

Report with Minor Mother as Alleged Perpetrator or Adult Subject of the Report and the Minor Mother's child as Alleged Child Victim or Child Subject of the Report

Report
