### **Overview**

Following the receipt of Permanent Custody (PC) or Permanent Surrender (PS) awarded to your agency for the child, agency assigned adoption personnel will complete a Pre-Adoptive Staffing record in SACWIS. Once the Pre-Adoptive Staffing information is entered, agency assigned adoption personnel can generate the Initial JFS 01690 (Documentation of the Pre-Adoptive Staffing and Updates). The data recorded in the SACWIS Pre-Adoptive Staffing record prints on the JFS 01690 report. You are now able to generate the following new reports:

- Generate Invitations
- Signatures Page Report

# Important Specifications:

There are names/roles of persons that will automatically pull into the Pre-Adoptive Staffing record at creation:

- 1. Upon creation of the Pre-Adoptive Staffing record, the system will add to the pre-adoptive staffing participants list:
  - a. The pre-adoptive staffing participant with Role of Child will always be the first participant listed. If the user chooses to delete this participant, then follow the alphabetical sort as listed below. The Agency / Organization Affiliation and the Participated in Staffing will be blank.
  - b. Assigned Adoption worker name and person ID with a Role of Adoption Caseworker. The Agency / Organization Affiliation will be owning agency name and the Participated in Staffing will be blank.
  - c. Assigned Adoption Worker's immediate supervisor (with or without assignment) and person ID with a Role of Adoption Supervisor. The Agency / Organization Affiliation will be owning agency name and the Participated in Staffing will be blank.
  - d. Any other non-end dated assigned workers with a Case Assignment Role of:
    - i. Primary Worker (mapped to PAS Role of Adoption Caseworker)
    - ii. Provider Worker (mapped to PAS Role of Provider Caseworker)
    - iii. IL Worker (Mapped to PAS Role of IL Worker)
    - iv. WWK Worker (mapped to PAS Role of WWK Recruiter)
  - e. Non-end dated Associated persons (name) and person IDs where the association is:
    - i. CASA (mapped to PAS Role of CASA)
    - ii. Caseworker (mapped to PAS Role of Case Manager)
    - iii. Foster Parent (mapped to PAS Role of Foster Parent)
    - iv. GAL (mapped to PAS Role of GAL)

- v. Medical Professional (mapped to PAS Role of Medical Professional)
- vi. Kinship Caregiver (mapped to PAS Role of Kinship Caregiver)
- vii. Probation Officer (mapped to PAS Role of Probation Officer)
- viii. Social Worker (mapped to PAS Role of Case Manager)
- ix. Tribal Representative (mapped to PAS Role of Tribal Representative)
- x. WWK Recruiter (mapped to PAS Role of WWK Recruiter)

The Agency/Organization Affiliation and the Participated in Staffing will be blank. The sort order will be alphabetical by person last name, first name. If a person (person ID) has already been added to the participants, then system will not add a duplicate person ID record (if adding from assigned worker and associated persons).

To enter the information and generate the report, complete the following steps:

# **Creating a Pre-Adoptive Staffing Record**

**Note**: SACWIS has a requirement of only one (1) Pre-Adoptive Staffing record per child. If a child already has a Pre-Adoptive Staffing record created prior to this functionality, you will NOT be able to record another one; the system enforces only one per child.

From the SACWIS Home Page:

- 1. Click the Case tab.
- 2. Click, Workload.
- 3. Click the appropriate adoption **Case ID** link.

**Note:** If you know the **Case ID** number, you can also use the **Search** link at the top of the **Home** screen and navigate to the adoptive child's **Case Overview** screen or you can use other components of the search functionality to locate the case.

On this screen, you can do the following:

- Create an initial record (add a child)
- Edit an existing record with an In Progress status
- Copy a **Completed** record to a sibling (if one exits and the sibling does not already have a Pre-Adoptive Staffing).
- 1. Make a selection from the drop-down menu under **Child Name**:

**Important**: The **Child Name** field drop-down list contains the names of **all active children** in the adoption case, but you can only select one name. This name list is dynamic and when a child has a Pre-Adoptive Staffing record, their name will no longer display in this list.

2. Click, Add Pre-Adoptive Staffing.
