System Generated Reimbursability Records

Reimbursability records are system generated at specific times during the custody episode.

1. **Initial** – When an Initial Eligibility record with a determination of Yes has been Final Approved.
2. **Continued** with a **Reason** of **Initial**– When an Ongoing Eligibility record with a determination of Yes has been Final Approved.
3. **Continued** with a **Reason** of **Age** – When an Age Eligibility record with a determination of Yes has been Final Approved.
4. **Continued** with a **Reason** of **Annual Reasonable Efforts**
 - a. **First Annual Reasonable Efforts** – A non-End Dated Reimbursability record with a determination of **Yes** exists that is not linked to a Ruling with a Ruling(s) Received of '**Annual Reasonable Efforts – Initial**' and the current date is greater than 365 days from the Initial Removal Date.
 - b. **Subsequent Annual Reasonable Efforts** – A non-End Dated Reimbursability record with a determination of **Yes** exists that is not linked to a Ruling with a Ruling received of '**Annual Reasonable Efforts – Subsequent**' and the current date is greater than 365 days from the Date of Ruling for the ruling linked to the previous Reimbursability record.
5. **Continued** with a **Reason** of **Placement**
 - a. QRTP Court Approval - A non-End Dated Reimbursability record with a determination of **Yes** exists, the Reimbursability record shows '**Not Required**' for the QRTP Ruling Result and the current date is more than the 60th day from the child's 1st placement with the Network Provider.

Determining Title IV-E Reimbursability

- b. Title IV-E Agency Director Signature – A non-End Dated Reimbursability record with a determination of **Yes** exists, the Reimbursability record shows '**Not Required**' for the Title IV-E Agency Director Signature and the current date is more than the DUE DATE.

DUE DATE is defined as follows:

- The child is under 13 years old as of the current date and the child has been placed in one or more congregate care settings where the placement's Network Provider was QRTP Compliant for either 180 consecutive or non-consecutive days during the custody episode.
- The child is 13 years old or older as of the current date during the custody episode and the child has been placed in one or more congregate care settings where the placement's Network Provider was QRTP Compliant for either:
 - 365 consecutive days
 - 545 non-consecutive days

When reviewing from section **Adding a Reimbursability Record**, click [here](#) to go back.

Reimbursability records with a Reimbursability Type of **Placement** are to be user created when a child moves from a non-reimbursable placement setting to a reimbursable placement setting or vice versa. The exception to this rule is when the child is placed in a **Congregate Care** setting. **Congregate Care** is defined as any of the following placement types:

- Group Home
- Emergency Shelter Care
- Children's Residential Center
- Residential Parenting

For more information on Reimbursable Placements please refer to the *Making Reimbursable Placements* Knowledge Base Article.

When a new congregate care placement setting is completed and the previous placement was not a congregate care setting or the previous placement was a congregate care setting with the different Network Provider, the system will end the existing completed Reimbursability record and create a new pending record when the child is IV-E Eligible.

Determining Title IV-E Reimbursability

When the child is IV-E Eligible *and*

- the congregate care placement's Begin and End Dates intersect the Reimbursability record's Begin and End Dates *and*
- the placement's Network Provider had a QRTP Compliance record of 'Compliant' at the time of the child's first placement within the placement's Network Provider,

the system will end existing Reimbursability records, set Reimbursability records back to pending or create new Reimbursability records when any of the following occur:

1. QRTP Compliance Record is changed
 - a. Status changes from 'Compliant' to 'Compliance Not Determined' or 'Not Compliant' or vice versa
 - b. Begin or End Date of the Compliance record is updated
2. QRTP Assessment is changed
 - a. Marked Created in Error and no new assessment was completed within the required 30 days of the 1st placement in the Network Provider
 - b. When an assessment is initially completed
3. Ruling that contains a Rulings Received of 'QRTP Placement Approved – Initial' or 'QRTP Placement Disapproved – Initial' is changed
 - a. Ruling is marked Created in Error and no new ruling was completed within the required 60 days of the 1st placement in the Network Provider
 - b. Rulings Received of 'QRTP Placement Approved/Disapproved – Initial' is added or removed from a Ruling
 - c. Ruling Date is changed
4. Title IV-E Agency Director's Signature in the Family Case Plan is changed signature is added to the Family Case plan where the child has been associated to the signature.

When a Reimbursability record is completed and contains any of the following:

- QRTP Compliance record
- QRTP Assessment record

Determining Title IV-E Reimbursability

- QRTP Court Approval record
- Title IV-E Agency Director Signature record

and that record is changed but does not change the requirement result of the Reimbursability record, the system will update the Reimbursability records to associate the correct record.

Note: All Reimbursability records that have been changed or added due to one of the rules above will display a section at the bottom of the screen called '**SACWIS System Generated Notes**' giving the date and reason for the change/addition.
